Description :

Prsentation de l'diteurIt's the end of World War II. FDR's New Deal has redefined American politics. Taxes are at an all-time high. The bombing of Hiroshima and Nagasaki has brought a fear of total annihilation. The rise of secret government agencies and sanctions on business has many watching their backs. America's sense of freedom is diminishing . . . and many are desperate to take that freedom back. Among them is a great dreamer, an immigrant who pulled himself from the depths of poverty to become one of the wealthiest and admired men in the world. That man is Andrew Ryan, and he believed that great men and women deserve better. And so he set out to create the impossible, a utopia free from government, censorship, and moral restrictions on science--where what you give is what you get. He created Rapture---the shining city below the sea. But as we all know, this utopia suffered a great tragedy. This is the story of how it all came to

be . . .and how it all ended. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Revue de presse "As a companion to the magnificent world the Bioshock series has built up so far, it's essential." --Square Go "I was absolutely enraptured by Rapture." --The Sixth Axis "It's worth taking another trip beneath the surface to see just what happened to the art-deco Atlantis." --Xboxer360 "It offers an enthralling, if sombre, first-hand look at the rise and fall of an undersea utopia. It adeptly deals with the philosophical issues of state control, and the nature of what man is prepared to sacrifice in order to fulfill his dreams, and is a worthy read for any Bioshock fan." --Playstation Future Presentation de l'diteur "It's the end of World War II.
