Description : Description du produitGhostWalker Jack Norton is a genetically enhanced telepathic sniper on a mission to rescue his brother in the jungles of the Congo. Then he meets Briony, a beautiful rebel on a mission of her own-and hiding secrets that a shadowy enemy would kill to discover.

Prsentation de l'diteurJack Norton is a GhostWalker, a genetically enhanced sniper with a merciless sense of justice, a phantom welcomed by the anonymity of the night. But a mission to rescue his brother in the jungle has left him vulnerable to rebel forces. His only salvation is his power of telepathy. Then he meets Briony, an unusual beauty on a mission of her own. But they share more than the sweltering heat ... Briony shares the GhostWalker powers. Yet she's different. She doesn't know what she is, or what she's capable of. But her

enemies do. And Jack and Briony's flight will take them into frightening conspiracy of mind and body - across the globe and into the heart of darkness, where the shocking truth is something neither of them could have foreseen - or can escape...BooklistThe fourth entry in Feehan's satisfying action adventure romance series may be the best one yet. Briony Jenkins, who performs in a trapeze act with her four brothers, was adopted and diagnosed as autistic as a toddler. In reality she was one of the infamous Dr. Whitney's victims enhanced with both physical and psychic talents. Her extreme empathy makes it painful for her to be around people, but her career puts her into the midst of crowds every day. Performing in Africa, she sneaks away from the hotel for some necessary solitude and is saved from rebel troops in the jungle by Jack Norton, a member of the armed forces who has the ghostwalker enhancements. He has escaped from a rebel camp where he had been horribly tortured. She saves him, and he shields Briony from the sensory overload that torments her. They go their separate ways, but Briony is pregnant, and Dr. Whitney's minions want her baby.
