Description : Description du produitMistaken for a murderer, Weather Warden Joanne Baldwin is hunted down and killed by her colleagues. Reborn as a Djinn, she senses something sinister entering earth's atmosphere-something that makes tomorrow's forecast look deadly.

Prsentation de l'diteurThe Wardens Association continues to protect the human race from extermination by climatic extremes. That is, when they're not turning on their own... Joanne's survived one challenge - technically - but now she's got a whole new set of problems. After being accused of murder and chased across the county - and killed - by a team charged with hunting down rogue Wardens, Joanne's human life is over. Reborn into Djinnhood, she has to master her enhanced powers whilst trying to avoid being 'claimed'

by a human. With the help of a hot supernatural lover, things are looking bright - until they go wrong. There's trouble brewing, and it's not confined to River City...or to the Wardens. No, this trouble could kill every Djinn on the planet - and unleash a storm that could send humanity to join them. Armed with keen fashion sense, lime-green Manolo Blahniks and a really fast car, Joanne prepares to do battle with the enemy. Just one problem...it may be herself.
