Revue de presse
Recommended for players from the post-beginner stage upwards. --John Saunders, BCMSan Diego IM
Cyrus Lakdawala's first book, *Play the London System* is the rare opening work aimed at a wide audience that succeeds. Club players will appreciate the 92 model games that are the centerpiece of this book. Carefully annotated with lots of explanatory prose these games are accessible to players as low as 1600 and yet this is by no means a book aimed solely at amateurs that avoids examining Black's most promising tries. --John Donaldson, Jeremysilman.com
This book is clearly written for White, it is biased, it is fun, it is somewhat thorough, and the games are very well annotated. --Carsten Hansen, ChessCafe.com
